Il tessuto viene stratificato soffiuvoto. La luce degli ambienti, influenza e varia i colori e le trasparenze.

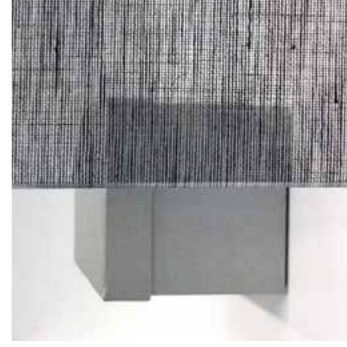

LINUM GRIGIO

LINUM MELANGE TORTORA

LINUM BIANCO

LINO TAFETÀ NERO

Tessuti stratificati tra due vetri

Fra due vetri viene stratificato il tessuto, ottenendo un vetro elegante che arreda senza necessità di utilizzare una tenda che necessiterebbe lavaggi e stiro.

Misure:

Si possono ottenere vetri di piccole e grandi misure e vari spessori previa consulenza del nostro staff tecnico.

Manutenzione:

Usare un panno morbido e non abrasivo con acqua. Non usare detersivi. Facile manutenzione.

satinato o trasparente

retro

VEURO BIANCO LAITE

retro

SS34 = 7mm

SS20 = 4,8mm

Misure:

I decori a catalogo sono proporzionati per vetri 55x160. Il decoro viene adattato in base alla misura richiesta (ingrandito, impicciolito, modificato). Il numero di Swarovski cambia in base alla misura del vetro.

I cristalli Swarovski possono essere incollati su:

Vetri Trasparenti e Satinati

Lato A: gli Swarovski sono a rilievo, molto brillanti.
Lato B: si vede nettamente il retro del cristallo fondo colore grigio.

Vetri stratificati Bianco-Latte, Ice, Opal, Bronzo, Grigio

Lato A: gli Swarovski sono a rilievo, molto brillanti.
Lato B: il retro del cristallo si vede sfuocato. Si intravede la sagoma fonda del cristallo di colore grigio più o meno scuro in base al colore del vetro.

Specchi - Lato specchiato

Gli Swarovski sono a rilievo molto brillanti.

Manutenzione:

La cura è la stessa di un gioiello o di un abito tempestati di Swarovski. Non strofinare. Non utilizzare panni abrasivi e detersivi. Spolverare delicatamente. Non insistere con la pulizia.

Personalizzazioni:

Oltre alla Home Collection, è possibile realizzare decori su richiesta o ricamare un testo o delle iniziali a scelta.

71

Decorati Sabbatiati

Incidiamo ogni tipo di superficie con un getto di sabbia, il risultato ottenuto è un tono su tono, poroso al tatto.

Misure:

I disegni a catalogo sono proporzionati per vetri 55x160. Il decoro viene adattato in base alla misura richiesta (ingrandito, impicciolito, modificato). Misura massima sabbatura: 156 cm x quanto si vuole.

I decori possono essere realizzati su:

Vetri di ogni spessore e colore

I decori possono essere eseguiti su vetri trasparenti, satinati, stratificati, laccati, riflettenti, ecc.

L'effetto della sabbatura resta sempre biancastro ma riflette sempre il colore del supporto con un effetto tono su tono. Sabbaiando i due lati del vetro (esempio Felici Triadi) si crea un gradevole effetto tridimensionale.

Specchi - Lato specchiato

Il decoro sabbaiato è ben visibile di colore bianco leggermente poroso.

Porte di legno o in laminato

Si possono decorare anche le porte di legno creando un effetto tono su tono raffinato e discreto. Per poter sabbaiare le porte, queste devono essere prima visionate dallo Staff Tecnico interno.

Manutenzione:

Usare un panno morbido e non abrasivo con acqua. Non usare detersivi. Facile manutenzione.

Personalizzazione:

Oltre ai decori a catalogo è possibile creare disegni su richiesta.
